ABOUT THE ANNUAL CONFERENCE

Every year, TOFGA gathers hundreds of farmers, ranchers, gardeners, educators, advocates, (and more!) to come together in community and continue their learning. Topics include how to implement sustainable growing practices, marketing products and strategies, making change in our communities and more.

We also want to make sure that in everything that we do, we put care for farmers, gardeners, and ranchers first by making sure that we have some fun! We do this with an annual happy hour, seed swap, farm trivia, and movie night!

ABOUT TOFGA

Established in 1992, Texas Organic Farmers & Gardeners Association (TOFGA) is the leading voice of education and advocacy for organic food production in Texas.

Our mission is to advance organic and sustainable agriculture in the state of Texas by providing education, networking, and advocating on behalf of food and fiber producers.
